Examiner Lee,

Attached are proposed amended claims I have prepared for better differentiating Kuchel.

I reviewed Kuchel. Fig. 5 of Kuchel is not stand alone. Rather, Fig. 5 describes a "accessory" which, according to Kuchel, can be placed ahead of lens 33 of the arrangement of Fig. 4 in lieu of components 40a, etc. See the paragraph beginning at line 30 of column 8. Thus, the Fig. 5 arrangement of Kuchel still requires a delay device which produces problems in terms of phase differences between the beams of light as discussed on page 10 of Amendment E previously filed.

Please call me tomorrow morning when it is convenient for you. Note, I will be leaving for the airport around 9:00 a.m. Tucson time (11:00 a.m. EST), and will not be back in the office until Monday.

Sincerely,

Norman P. Soloway
